Program of the School: KAM theory and Dispersive PDEs

Monday, Sept. 1 Aula Consiglio (1st floor)

9.00-9.30   registration and welcome

9.30-11.00   Gérard: "The cubic Szego equation"

                    Coffee break

11.30-13.00   Kuksin: "Averaging for nonlinear PDEs"

15.00-17.00   Students discussion & study groups

Tuesday, Sept. 2 Aula Consiglio (1st floor)

9.30-11.00   seminars: Cassano, Lucà + poster session

                    Coffee break

11.30-13.00   Baldi: "Water Waves"

(16.00-17.00)   Math Colloquium at the University of Roma Tre
                 Yakov Sinai: "Estimates of remainders in some problems of number theory"

Wednesday, Sept. 3 Aula Consiglio (1st floor)

9.30-11.00   Kuksin: "Averaging for nonlinear PDEs"

                    Coffee break

11.30-13.00   Gérard: "The cubic Szego equation"

15.00-16.00   seminars: Feola, Montalto

16.30-17.30   Students discussion & study groups

Thursday, Sept. 4 Aula Consiglio (1st floor)

9.30-11.00   Gérard: "The cubic Szego equation"

                    Coffee break

11.30-13.00   Alazard: "Zakharov's program in water-waves theory"

15.00-16.30   seminars: Maspero, Molnar, Haus

17.00-18.00   Students discussion & study groups

Friday, Sept. 5 Aula Consiglio (1st floor)

9.30-11.00   Alazard: "Zakharov's program in water-waves theory"

                    Coffee break

11.30-13.00   Kuksin: "Averaging for nonlinear PDEs"

Students participating in the study groups: Ambrosio, Azzouzi, Bouthelja, Cassano, Fiszka, Giuliani, Górka, Haus, Khayamian, Lucà, Marcozzi, Maspero, Molnar, Montalto, Nguyen, Pasquali, Patel, Sacchet, Stingo, Tahri, Thirouin, Vilaça da Rocha, Widmer, Wilson, Xia, H. Xu
